PROFILE

I want to learn new things and consider myself a responsible and orderly person. I am looking forward to my first work experience. As a quick learner with excellent problem-solving skills and a strong desire to contribute to innovative projects.

PROJECTS

E-Commerce

- Developed a full-featured e-commerce platform with user authentication, product catalog, cart functionality, and secure payment integration.
- Implemented RESTful APIs using Node with TypeScript & Express for backend operations, including user management, order processing, and product CRUD.
- Integrated PostgreSQL database with proper schema design and relationships
- Built a responsive frontend with React.js and Redux for state management, ensuring seamless user experience across devices.
- Integrated JWT for user authentication and authorization.

DevTinder

- Developed a Tinder-like web app to help developers connect based on skills and interests.
- Implemented user authentication (JWT) and profile matching algorithms.
- Designed a responsive frontend with React.js and a scalable backend using Node.js & Express.
- Utilized MongoDB for database management.

EDUCATION QUALIFICATION

Bachelor of Computer Application

2021 - 2024

I have been completed Bachelor of Computer Applications with 7.8 CGPA at Bhagwan Mahavir University , Surat.

Master of Computer Application

2024

I am pursuing Master of Computer Applications from Parul University , Vadodara.
